Further Revision to Case 13-E-0421

Dear Commissioners:

The amended tariff leaf set forth below is filed by Central Hudson Gas & Electric Corporation ("Central Hudson" or the "Company") on December 27, 2013 to become effective February 1, 2014.

P.S.C. No. 15 – Electricity

2nd Revised Leaf No. 163.5.12

Background

On September 22, 2011 the Company proposed the consolidation of net metering tariff provisions and revised billing provisions applicable to demand metered customers in Case 11-E-0524, issued and effective March 15, 2012. On December 21, 2011 the Company prepared a compliance filing to effectuate amendments to Public Service Law Section 66-j to provide for the net metering of residential or non-residential micro-hydroelectric customer generators and non-residential fuel cell customer generators in Case 11-E-0318, issued and effective March 16, 2012. On March 28, 2012 a supplemental filing merged the two filings together, Case 11-E-0318, and reference language on one of the leaves was inadvertently omitted.

Tariff Amendments

The purpose of this filing is to make further revision to the filing made on October 15, 2013, Case 13-E-0421, with an effective date of February 1, 2014, to amend the tariff leaf adding reference language inadvertently omitted with the filing made on March 28, 2012, Case 11-E-0318.

Since the Company currently has no customers taking this service and no one contemplating taking this service, the Company requests that the requirements of 66(12)(b) of the Public Service Law as to newspaper publication for the amendments listed herein be waived.

Questions related to this filing should be directed to Linda VanEtten at (845) 486-5554.

Yours very truly,

Michael L. Mosher
Vice President - Regulatory Affairs
