Statement No.

1

The Companies will be filing an application seeking Commission authorization to merge UWWC into UWNR. The Companies propose that, upon approval of the proposed merger and of new rates in these proceedings, all existing UWWC tariff leaves and statements will be cancelled and customers of that company will be billed at the UWNR proposed rates.

Purpose of the Filing

The enclosed revisions to Schedule P.S.C. No. 1 - Water, are designed to produce an annual increase in base rates for the Companies of approximately \$17.9 million. However, taking into account the resetting to zero of current surcharges, the net customer impact will be an increase of approximately \$14.3 million. Prepared written testimony and exhibits comprising the Companies' direct case in support of these tariff revisions are being filed with the Commission contemporaneously under separate cover. The Companies' supporting testimony and exhibits are premised on the Commission's approval of the proposed merger of UWWC into UWNR.

Newspaper Publication

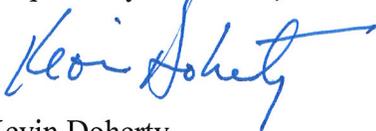

Notice of this filing will be published in newspapers in accordance with the Commission's requirements set forth in 16 NYCRR § 720-8.1. Proof of publication of the notice will be filed upon completion.

State Administrative Procedure Act

A proposed form Notice of Proposed Rulemaking for publication in the State Register pursuant to the State Administrative Procedure Act is enclosed.

Please do not hesitate to contact me if you have any questions regarding this filing.

Respectfully submitted,

Kevin Doherty

Director - Regulatory Business
