Re: Case No. 09-E-0428, Revenue Decoupling Mechanism

Dear Secretary Burgess:

Consolidated Edison Company of New York, Inc. (the “Company”) is filing with the New York State Public Service Commission (the “Commission”) a revised “Statement of Revenue Decoupling Mechanism Adjustment” (“RDM”) to the Company’s Schedule for Electricity Service, P.S.C. No. 10 – Electricity (“Electric Tariff”), applicable to its customers in the City of New York and the County of Westchester.

The Statement submitted herewith is as follows:

RDM Statement No. 7 to P.S.C. No. 10 – Electricity

The Statement is issued on August 27, 2013, to become effective September 1, 2013.

Reason for Filing

Pursuant to General Rule 26.2 of the Electric Tariff and Leaf 21 of P.S.C. No. 12 – Electricity (the “PASNY Tariff”), every six months, the cumulative difference between actual pure base revenues and allowed pure base revenues under each service classification (“SC”)¹ is charged or credited to customers in that SC with interest, over a six-month period that commences two months later.² The Electric Tariff and PASNY Tariff also permit the Company to initiate collection or refund of RDM amounts prior to the onset of the normal six-month RDM collection/refund period or adjust the amounts to be collected or refunded for the remaining months of an RDM collection/refund period if the cumulative difference equals or exceeds \$10 million.

¹ NYPA is treated as a single SC under P.S.C. No. 12 – Electricity (the “PASNY Tariff”).

² The Electric and PASNY Tariffs specify that the RDM adjustments determined for the six-month period October through March are to be collected over the six months May through October, and the RDM adjustments determined for the six-month period April through September are to be collected over the six months November through April. (This schedule may be accelerated if the cumulative difference equals or exceeds \$10 million.)

Through this filing, the Company is resetting the RDM Adjustment to the Electric Tariff prior to the onset of the normal six-month RDM collection/refund period that commences November 2013, to reflect a net over-collection of revenues of \$57.9 million, excluding interest, attributable to the Con Edison SCs for the months of April 2013 through July 2013.³ To mitigate bill impacts, the RDM adjustments for each SC have been determined based on projected kWh deliveries for the September 2013 to February 2014 period.

The RDM unit amounts that are filed on the attached Statement reflect a refund/surcharge for the applicable over/under collection amounts for each SC as described above, plus the RDM unit amounts currently being collected/refunded, pursuant to RDM Statement No. 6.

As specified in the Electric Tariff, the revised Statement is being filed with the Commission no less than three days before the start of the period for which the RDM Adjustments are to be in effect and has an effective date of September 1, 2013.

Respectfully submitted,

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.

/s/ William A. Atzl, Jr.
Director
Rate Engineering

³ The PASNY RDM adjustment is not being re-set, because PASNY's actual pure base revenue over the six months ending September 2013 is expected to be reasonably in line with its allowed pure base revenue.
