RE: Village of Holley – Electric Department

Dear Secretary Cohen:

Attached please find Revision 3 to Leaf No. 13 of P.S.C. No. 1 – Electricity for the Village of Holley Electric Department (the “Village”) to be effective July 1, 2013. The revised leaf is to update the charges for reconnections and insufficient fund check charge. .

The Village wishes to update the charges as the current charges are significantly under the cost to serve. For example, the current insufficient fund check charge of \$10 is less than what the Village is charged by its bank which is \$15 per check. While the Village understands that most businesses are charging \$35-\$50 for a returned check, the Village proposes to limit the charge to \$20 per check.

As to reconnection fees the current charges of \$25 for a reconnection during regular working hours and \$35 for a reconnection after regular working hours are also under cost. The average labor rate for field personnel is \$23.13 per hour and the Village has administrative overhead rates of 10% for transportation and 25% for administrative fees. Given that the Village deploys two man crews, this results in a cost to serve of \$62.46 during regular hours and \$93.69 for a

reconnection that would occur after regular business hours. This cost is based on a conservative one hour time frame for each turn on and turn-off. The Village proposes a reconnection fee of \$62 during regular working hours and a fee of \$94 for a reconnection after regular work hours.

The Company asks that questions regarding this filing be directed to:
