Dear Secretary Burgess:

Enclosed please find the Village of Little Valley's revised Tariff Leaves and the exhibits supporting the Village's rate request. The Village is requesting this rate increase based on an analysis showing that the current rate of return is negative 2.67% and it is anticipated that without a rate increase this rate of return will remain in as a negative.

We are requesting that the revised Tariff Leaves be effective with the usage of electric services May 2014 which corresponds to the billing of June 2014, which is the beginning of our next fiscal year, and that the Village be granted a waiver of required four week notification and that rate payers will receive individual notification of the rate increases in lieu of the publication of notification of the rate increase.

The rates per the revised Tariff Leaves reflect a 33.63% increase across all service classifications.

Sincerely,

  
Norman Marsh  
Mayor
