RE: Case No. 15-E-0572 – Joint Petition for Change in
Residential PV Net-Metering Anniversary Month Rule.

Dear Secretary Burgess:

Orange and Rockland Utilities, Inc. (the "Company") hereby submits for filing 8th Revised Leaf No. 184 reflecting revisions to its Schedule for Electric Service, P.S.C. No. 3 – Electricity (the "Tariff"). This leaf is issued April 15, 2016, to become effective April 22, 2016.

Background and Tariff Change

The Commission's Order Granting Modified Relief and Making Other Findings (the "Order"), issued and effective January 27, 2016, in Case 15-E-0572, directed the Company to file, within thirty days of the date of the Order, either tariff revisions taking effect on seven days' notice providing for the cumulative cash out methodology for net excess energy credits at the end of a residential PV customer's 12-month anniversary month, or an explanation of why the Company's one month methodology is justified.

The Company agreed to change its methodology; however, in order to allow for time for implementation and testing, the Company requested and was granted an extension until May 2, 2016, to file tariff revisions in accordance with the Order. The Company has completed all work necessary to effectuate the changes to the cash-out methodology.

As a result, the Company is filing a change to Rider N to indicate that any customer subject to an annual cash-out will have the basis of that cash-out to be the average of the NYSIO Day Ahead Market Zone G average monthly hourly LBMPs for the 12 months prior to the customer's anniversary date.

Conclusion and Notice

The extension request granted on February 19, 2016, directed the Company to file tariff changes by May 2, 2016. Such tariff changes were to be effective on 7-day's notice. As specified in Ordering Clause 4 of the Order, the requirement for newspaper publication was waived.

Very truly yours,

/s/

William A. Atzl, Jr.
