Honorable Kathleen H. Burgess, Secretary  
State of New York  
Public Service Commission  
Office of the Secretary, 19th Floor  
Three Empire State Plaza  
Albany, NY 12223

RE: Case 15-E-0645-Tariff Filing by Niagara Mohawk d/b/a National Grid to Update Service Classification No. 2 – Street Lighting to Incorporate an LED Option to PSC No.214 Electricity

Dear Secretary Burgess:

The attached leaves, issued by Niagara Mohawk Power Corporation d/b/a National Grid (“the Company”), are being transmitted for filing in accordance with the requirements of the Public Service Commission (“Commission”), State of New York.

Fourteenth Revised Leaf No. 31  
Eleventh Revised Leaf No. 44

To P.S.C. No. 214 Electricity

Effective: June 1, 2016

Purpose of Filing:

On October 30, 2015, the Company submitted a filing proposing a Light Emitting Diode (“LED”) option under PSC 214 Service Classification No. 2 – Street Lighting – Unmetered Company Owned/ Company Maintained facility. This filing was submitted because municipalities within the Company’s service territory had expressed interest in replacing current non-LED fixtures with LED fixtures.

Based on discussions between staff of the Commission and the Company it was decided that further revisions needed to be made to the pending filing. Specifically, the Luminaire charge for Roadway – LED’s has been updated and the Permanent Discontinuance section has also been updated per staff request.

Attachment 1 included with this filing contains redlined leaves to show where these changes have occurred.

In the Company’s filing of October 30, 2015, the Company respectfully requested waiver of newspaper publication requirements of Public Service Law § 66(12)(b) and 16 NYCRR 720.8 for this proposal. The Company has a communication plan in place to notify municipalities of this offering.

Please advise the undersigned of any questions regarding or action taken with respect to this filing.

Sincerely,

*/s/ Carol Teixeira*
