Effective: June 1, 2016

Purpose of Filing:

On March 19, 2016, Chapter 495 of the Laws of 2015, amends Public Service Law to add a new Section 70-a requiring certain utility tariffs to provide for the establishment of a process to facilitate the transfer of complete systems of street light equipment, including supporting infrastructure, any required street lighting attachment provisions, and related rates and charges.

On December 23, 2015, the above Notice was issued by the Secretary of the Commission which directed the joint utilities to make the filings necessary to conform their tariffs to the new requirements.
