RE: Case 14-E-0151/14-E-0422 – Order Raising Net Metering Minimum Caps, Requiring Tariff Revisions, Making Other Findings, and Establishing Further Procedures

Dear Secretary Burgess:

The enclosed leaves, issued by Niagara Mohawk Power Corporation d/b/a National Grid (“Company”), are being transmitted for filing in compliance with the order issued in Case 14-E-0151/14-E-0422 (“Order”) on April 17, 2015 by the New York State Public Service Commission (“Commission”).

Third Revised Leaf No. 199.2
Fifth Revised Leaf No. 199.3
First Revised Leaf No. 199.4

To PSC No. 220 Electricity

Effective: September 21, 2015

On June 29, 2015 the Company made a filing in compliance with the Order to: 1) revise the methodology of issuing excess credits to accounts that are satellite accounts of a non-residential non-demand host customer generator; and; 2) waive this new crediting methodology for certain grandfathered projects. This change in methodology and transition plan for certain grandfathered projects applies to customer-generators who qualify for remote net metering under PSL 66-j and 66-l. ‘

The leaves issued in the above filing did not have the title updated to include Micro-Hydroelectric Generating Equipment. The above leaves now include Micro-Hydroelectric Generating Equipment in the title.

Ordering Clause 3 of this order waived the requirements of Public Service Law §66(12)(b) as to newspaper publication of these tariff amendments.

If you have any questions concerning this filing, please call Patricia Rivers at (315) 428-6833.

Sincerely,

/s/ Patricia J. Rivers
