Re: Statement of Value of Distributed Energy Resources Cost Recovery

Dear Secretary Phillips:

Consolidated Edison Company of New York, Inc. (the “Company”) is filing with the New York State Public Service Commission (the “Commission”) a revised “Statement of Value of Distributed Energy Resources” (“VDER”) to the Company’s Schedule for Electricity Service, P.S.C. No. 10 – Electricity (the “Electric Tariff”), applicable to its customers in the City of New York and the County of Westchester.

The statement submitted herewith is as follows:

VDER-CR Statement No. 6 to P.S.C. No. 10 – Electricity

The statement is issued to become effective April 1, 2022.

On November 23, 2021, the Company made its annual filing pursuant to General Rule 26.8 of the Electric Tariff to reset the per-kWh and per-kW charges applicable to all customers for recovery of the credits paid to customers served under the Value Stack Tariff under Rider R of the Electric Tariff (the “November Filing”). In the November Filing, the Company included rates of \$0.0000 for recovery of the Environmental – Market Value credits paid to Value Stack customers. However, as per General Rule 26.8 of the Electric Tariff, such amounts are to be collected from customers via the Clean Energy Standard Supply (“CESS”) Surcharge.

For more clarity, the Company is therefore filing today to include on the VDER-CR statements the designation of “NA” for the Environmental – Market Value surcharge components since the Company already includes the cost recovery for this Value Stack component on a common cents per kWh basis for all full service customers through the CESS Surcharge.

Any questions regarding the filing can be directed to Sanaul Islam at (212) 460-1277.

Respectfully submitted,

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.
