Albany, New York 12223

RE: Cancellation of Green Island Power Authority Tariff – P.S.C. No. 1 -
Electricity

Dear Secretary Phillips:

The Green Island Power Authority (“GIPA”), a municipal electric utility owned and operated in the Village of Green Island, New York, has decided to pursue power service from the New York Power Authority (“NYPA”) as a full requirements customer. GIPA currently serves its customers under its tariff filed with the Public Service Commission (“Commission”), P.S.C. No. 1 – Electricity. GIPA commenced receiving power service as a full requirements customer of NYPA on July 1, 2023. Since GIPA has begun receiving all of its power from NYPA for distribution and sale to GIPA customers, the Public Service Law, and thereby Commission and Department of Public Service regulation, does not apply to GIPA as of July 1, 2023.

GIPA’s tariff under NYPA remains identical to the current tariff on file at the Commission. GIPA does not anticipate a change to its tariff and associated service schedules until a future rate redesign may be initiated with NYPA.

Pursuant to Staff’s recommendation, attached is GIPA’s Supplement No. 2 to P.S.C. No. 1- Electricity, which cancels GIPA’s tariff in its entirety with an effective date of December 6, 2023.

Newspaper publication of the tariff cancellation at the Commission will be made in accordance with the Commission’s regulations in the local newspaper for

four consecutive weeks, on November 10th, 17th, and 24th, 2023 and December 1st 2023, and will file proof of publication with the Secretary to the Commission.

Respectfully submitted,

Madeline Paterniani
Green Island Power Authority

Enclosure
