Re: Statement of Value of Distributed Energy Resources – Cost Recovery

Dear Secretary Phillips:

The enclosed statement is being reissued by Central Hudson Gas & Electric Corporation to be effective December 12, 2023 and transmitted for filing in compliance with the requirements of the Public Service Commission of the State of New York regarding charge in adjustments.

PSC No. 15 – Electricity

Statement of Value of Distributed Energy Resources – Cost Recovery – VDER-CR 69

Statement VDER-CR 68 was submitted on December 7, 2023 but inadvertently miscalculated the Environmental Component – Market Value rate applicable to all the Service Classes shown on the statement through a linking error. As Statement VDER-69 will automatically supersede Statement 68, as they both have the same effective date, this same error does not need to be corrected on Statement VDER-68. Furthermore, Statement VDER-68 can be cancelled. This compensation will be recovered through the Market Price Charge and Miscellaneous Charge components of the Energy Cost Adjustment Mechanism, which were filed on December 7, 2023 to become effective today.

Questions related to this filing should be directed to Edward Rodd at [erodd@cenhud.com](mailto:erodd@cenhud.com) or at (845) 486-5952.

Sincerely,

Joseph Hally
