Summary of Tariff Changes

The Company proposes the following changes to comply with the PSC's June 18, 2001 Order:

The DADRP will be made available to Service Classification No. 12 customers as well as any customers receiving New York Power Authority Power for Jobs power allocations.

Customers in the DADRP will be permitted to submit DADRP bids two days in advance rather than a month in advance.

Customers will be permitted to bid in load curtailment in 100 Kw increments rather than whole MWs.

Upon acceptance of a customer's DADRP bid, Central Hudson will notify customer of accepted bids.

Demand reduction payments will be based on the scheduled Kw amount of curtailment.
