Re: Case 06-G-1332 - Proceeding on Motion of the
Commission as to the Rates, Charges, Rules and
Regulations of Consolidated Edison Company of
New York, Inc. for Gas Service

Dear Secretary Brillling:

Consolidated Edison Company of New York, Inc. ("Con Edison" or the "Company") hereby submits for filing the following tariff leaf proposing revisions to its Schedule for Gas Service, P.S.C. No. 9 – GAS (the "Gas Tariff") in compliance with the Commission's Order in Case No. 06-G-1332, issued and effective January 16, 2008 (the "January 2008 Order") :

Leaf 178 Revision 7 Superseding Revision 6

The Company is filing this tariff leaf electronically today to become effective August 27, 2008.

Reason for Tariff Modifications

On March 31, 2008, the Company filed tariff revisions effective April 1, 2008 to amend certain tariff provisions applicable to Billing and Payment Processing ("BPP") charges, in compliance with the January 2008 Order. One of the tariff amendments allowed the Company to recover, through the Transition Adjustment for Competitive Services, any lost revenue associated with BPP resulting from the January 2008 Order. Upon further review the Company has determined that lost revenue would not result from the tariff revisions that became effective April 1, 2008.

Therefore, with this filing, the Company is removing from the Transition Adjustment for Competitive Services provision any reference to lost revenue associated with changes made to the BPP tariff provisions, and is clarifying the description of lost revenues when a customer receives an ESCO consolidated bill.

Notices

The Company respectfully requests waiver of the requirements of Public Service Law § 66 (12) (B) as to newspaper publication of the changes proposed by the tariff amendments filed today, since required publication of notice of the remaining tariff amendments to the subject case have been completed and because there is no effect on revenues.

Questions regarding this filing may be directed to me at (212) 460-3325.

Very truly yours,

Christine Colletti
Director – Rate Engineering
