RE: Revision to Statement of Percentage Increase in Rates and Charges for MTA
Tax Surcharge

Dear Secretary Brillling:

Consolidated Edison Company of New York, Inc. ("Con Edison" or the "Company") is filing the following revision to the "Statement of Percentage Increase in Rates and Charges" separately stated on Con Edison's gas tariff:

GRT Statement No. 30 to PSC No. 9 - Gas

This statement is issued March 15, 2007, to become effective April 1, 2007.

Explanation of the Statement Changes

This filing is in accordance with the Company's gas tariff which requires the Company to recover the tax expense imposed by the temporary Metropolitan Transit Authority Business Tax Surcharge ("MTA Surcharge") pursuant to New York State Law Sections 209-b and 186-c. The MTA Surcharge includes a net credit of \$791,046 related to New York State Income Tax ("NYSIT"). This net credit reduces the MTA Surcharge applicable to delivery rates by 0.1412% on a nominal basis. However since non-residential customers residing in certain municipalities in Westchester County are not subject to any GRT taxes except for the MTA Surcharge on NYSIT, these customers' GRT rate would be negative, a condition which the Company's billing system is not prepared to handle. Thus the Company, after consulting with PSC Staff, will charge this group of non-residential customers at a rate of 0.0000% on their delivery revenue. The

Company will track the credit that these customers would have received and will defer that amount monthly until such time as there are charges available to offset these credits. It is estimated that the amount to be deferred will be in the range of \$15,000 to \$20,000.

Respectfully submitted,

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.
