Re: Alternate Fuel Market Price

Dear Commissioners:

The amended tariff leaves set forth below are filed by Central Hudson Gas & Electric Corporation ("Central Hudson" or "the Company") on February 28, 2008 to become effective June 1, 2008.

P.S.C. No. 12 - Gas

5<sup>th</sup> Revised Leaf No. 169  
9<sup>th</sup> Revised Leaf No. 175.1  
3<sup>rd</sup> Revised Leaf No. 202

The purpose of this filing is to update references in the Company's tariff to the alternate fuel market price paid by Service Classification Nos. 8, 9 and 14 customers who fail to meet the alternate fuel reserve requirement. The Company no longer receives the publications currently referenced in the tariff for the alternate fuel market price. This change also aligns the Company's gas tariff by referencing the same publication used in the Company's aggregation, interruptible and firm transportation service classifications.

A review of records over the past five years has shown that the Company had no occurrence of having to bill an interruptible customer for failing to meet the alternate fuel reserve requirement during that period. Given the virtual transparency of this amendment based on how often it is employed, and given this amendment could potentially affect only a small number of customers, with whom the Company is in contact with during the winter period, the Company requests that the requirements of §66((12)(b)) of the Public Service Law as to newspaper publication be waived.

Questions related to this filing should be directed to Stacy Powers at (845) 486-5815.

Yours very truly,

Michael L. Mosher
