NYSEG originally filed these tariffs on December 20, 2004 in compliance with the Order. NYSEG filed revisions to these tariffs on February 23, 2005, at the request of Staff.

This filing modifies the Renewable Portfolio Standard Charge ("RPS"), from \$.00021 per kWh, to \$.0002 per kWh for all service classes. NYSEG inadvertently carried the RPS charge to 5 decimal places when it should have carried the RPS charge to only 4 decimal places consistent with the System Benefits Charge ("SBC").
