November 24, 2004

Honorable Jaclyn A. Brillling, Secretary
New York State Public Service Commission
Executive Office, 14th Floor
Three Empire State Plaza
Albany, New York 12223

Dear Secretary Brillling:

Enclosed, please find the following revised page for The New York State Telecommunications Association, Inc.

P.S.C. No. 2 – Telephone
Section 2

First Revised Page 28

The issue date of this filing is November 24, 2004 and the effective date is December 24, 2004.

In the Commission's July 28, 2004 directive in Case No. 03-C-0922, Item 6 of the Ordering Clause states: "All carriers are directed to file with the Commission (ten copies) within 120 days, or as the Secretary may require, cost support information relating to any state tariff charges for Telecommunications Service Priority services." Currently, the NYSTA tariff states that a one-time charge, based on cost would apply. In discussions between NYSTA and DPS Staff addressing the Order's requirements, staff recommended filing a specific rate element for this service; therefore, NYSTA seeks to revise the description surrounding the Rates and Charges for Telecommunications Service Priority Administrative Charge. Those individual Companies concurring in the NYSTA tariff have contemporaneously filed a specific rate element for this service under separate cover.

The rates established in concurring companies' tariffs mirror the rates filed in the NECA FCC Tariff No. 5 for the same service. NYSTA believes that this rate is a reasonable industry representation for the cost of this service. The rate established in the NECA Tariff is based upon an average of the costs of similarly situated Local Exchange Carriers on a nation-wide basis.

This filing is administrative; therefore no revenue impact has been calculated, but it is expected to be minimal or have no impact at all. Concurring Companies' will notify any TSP customer of this charge upon a request for TSP service.

If you have any questions, please call me at 443-2703.

Sincerely,

Caroline Hill
Tariff Manager
