RE: Massena Electric Department

Dear Secretary Brillling:

Attached please find Original Leaves No. 29 through 33 of P.S.C. No. 2 – Electric for the Massena Electric Department (the "Company") to be effective January 1, 2005. The purpose of this rider is to implement an economic development program for industrial and commercial customers with the intention of attracting new customers and encouraging existing customers to expand their businesses in upstate New York. The rider is based on the plan implemented by the City of Jamestown in Case #02-E-1355.

The Town of Massena Electric Department (MED) is a municipal electric utility owned by the Town of Massena which is located on the St. Lawrence River in northernmost New York State. The Town purchased the electric distribution system from Niagara Mohawk Power Corporation (Niagara Mohawk) in 1981. The MED system now serves more than 9,000 customers providing businesses and residents with energy at rates that are among the lowest in the country. The implementation of this rider will help to encourage businesses to expand in the area or locate to the area thus improving the economic status of the region. While the discounts being offered are substantial, they still provide that new or expanding customers will cover incremental costs of the system.

The Company asks that questions regarding this filing be directed to:

Frank W. Radigan  
Hudson River Energy Group  
120 Washington Ave., 2<sup>nd</sup> floor  
Albany, NY 12210  
Tel: (518) 436-1628

Respectfully submitted,  
For the Massena Electric Department
