RE: Case No. 10-E-0645-In the Matter of Interpretation of the Billing Period and Annual Credit Requirements Applicable to Certain Net Metered Customers – Order Directing Tariff Revisions and Making Other Findings

Dear Secretary Brillling:

The attached leaves, issued by Niagara Mohawk Power Corporation, d/b/a National Grid (“Company”), are being transmitted for filing in compliance with the order issued May 23, 2011 in the above case number.

First Revised Leaf No. 199.1
Second Revised Leaf No. 202

To P.S.C. No. 220 Electricity

Effective: June 15, 2011

The purpose of this filing is to revise Rule No. 36 – Net Metering for Solar Electric Generating Equipment, Farm Waste Electric Generating Equipment, Micro-Combined Heat and Power Generating Equipment and Fuel Cell Electric Generating Equipment and Rule No. 37 – Net Metering for Residential, Farm Service and Non-Residential Wind Electric Generating Systems as Defined in Public Law (“PSL”) 66-1. The above order directed the Company to file tariff amendments on or before June 8, 2011 to become effective on June 15, 2011, allowing eligible residential solar, farm waste, residential wind, and farm wind customers to select an individual anniversary date for the annual cash-out of excess net metering credits.

In accordance with this order, Rule No. 36.6.4. and Rule No. 37.6.3 have been revised to allow residential customers this one-time option to choose an alternate anniversary date for their annual cash-out.

Per Ordering Clause No. 4 of this order, the requirements of newspaper publication as required by the Commission’s regulations of 16 NYCRR Section 720-8 are waived for this filing.

Please advise the undersigned of any action taken regarding this filing.

Sincerely,

Patricia J. Rivers
