

March 1, 2011

Honorable Jaclyn A. Brilling
Secretary
New York State Public Service Commission
Three Empire State Plaza
Albany, New York 12223-1350

Dear Secretary Brilling:

The enclosed revised leaf, issued by New York State Electric & Gas Corporation ("NYSEG" or the "Company") is transmitted for filing in compliance with the requirements of the New York State Public Service Commission ("PSC" or "Commission").

PSC No. 119 – Electricity, Schedule for Electric Service

Leaf No. 20, Revision 12

Effective April 1, 2011.

This filing is being submitted to make a pricing revision to NYSEG's electric tariff that was recently submitted on January 31, 2011. During a review of the filing with Staff it was determined that a poly-phase project was incorrectly included with the single-phase projects. The project was removed from the single-phase rate calculation and added to the poly-phase rate calculation. In addition, a single-phase project was removed from the single-phase rate calculation because it has been determined that the project is not yet complete. The rates on the revised leaf reflect these changes.

The Company respectfully requests that the requirement of § 66(12)(b) of the Public Service Law and 16 NYCRR §720-8.1 for newspaper publication be waived because the customers are provided the current effective rates when they contact NYSEG in regard to the pricing of underground line extensions.

Please contact Sue Morien at (585) 771-4741 or me at (607) 762-8710 if you have any questions.

Very truly yours,

A handwritten signature in cursive script that reads "Lori A. Cole".
