Case 10-E-0133: Filing to Effectuate Amendments to Public Service Law Sections 66-j & 66-l

Dear Commissioners:

The amended tariff leaves set forth below are filed by Central Hudson Gas & Electric Corporation (“Central Hudson” or the “Company”) on April 28, 2010 to become effective July 23, 2010 in order to reflect amendments made to Sections 66-j and 66-l of the Public Service Law in compliance with the notice establishing filing requirements issued March 31, 2010.

P.S.C. No. 15 – Electricity

4th Revised Leaf No. 172
7th Revised Leaf No. 183
8th Revised Leaf No. 199
7th Revised Leaf No. 201
6th Revised Leaf No. 252
6th Revised Leaf No. 258

These amendments regarding the net metering of non-residential photovoltaic and non-residential and farm service wind customer generators are made in order to eliminate the peak load limitation language from the tariff leaves listed above. Staff, through consultation, has indicated that a revised SIR document will be provided after the Commission approves the utilities' tariff filings. It is the Company's understanding that the revised SIR will specify and/or clarify cost responsibility for dedicated transformer(s) or other equipment deemed necessary for safety and adequacy of service particularly with respect to non-residential systems with rated capacity of more than 25 kW.

Since customers participating in net metering are subject to interconnection requirements and are therefore in direct contact with Central Hudson, the Company requests that the requirements of 66(12)(b) of the Public Service Law as to newspaper publication for the amendments listed herein be waived.

Questions related to this filing should be directed to Lauren M. Guido at (845) 486-5761.

Yours very truly,

Michael L. Mosher
Vice President - Regulatory Affairs
