RE: Case No. 10-E-0136 – Niagara Mohawk Power Corporation d/b/a National Grid - Tariff filings to Effectuate Amendments to Public Service Law §66-j and §66-l(Net Energy Metering for Non-Residential Photovoltaic and Non-Residential and Farm Service Wind Electric Generating Systems) and Conforming Changes to Standardized Interconnection Requirements

Dear Secretary Brillling:

The enclosed leaves, issued by Niagara Mohawk Power Corporation d/b/a National Grid, are being transmitted for filing in accordance with the requirements of the New York State Public Service Commission (“Commission”).

Third Revised Leaf No. 197
Third Revised Leaf No. 198
Second Revised Leaf No. 200
Second Revised Leaf No. 201

To PSC No. 220 Electricity

Effective: July 23, 2010

On March 31, 2010 a Notice Establishing Filing Requirements was issued by the Commission in reference to the recent amendments to Public Service Law §66-j and §66-l regarding the net metering of non-residential photovoltaic and non-residential and farm service wind customer generators which became effective March 16, 2010. The amendments to the above laws revised the generating capacity of solar and wind commercial generating systems to not more than two thousand kilowatts and revised the language and limits on the installation of dedicated transformers that may be necessary to serve these systems. This notice directed the major utilities to make the filings necessary to conform their respective tariffs to the new statutory requirements by April 29, 2010 to become effective July 23, 2010.

Rule No. 36 – Net Metering for Solar Electric Generating Equipment, Farm Waste Electric Generating Equipment, Micro-Combined Heat and Power Generating Equipment and Fuel Cell Electric Generating Equipment and Rule No. 37 – Net Metering for Residential Farm Service and Non-Residential Wind Electric Generating Systems have been revised to incorporate the above changes. Specifically,

1. Rule No. 36.1.2 has been revised to incorporate the change of rated capacity for non-residential Solar Electric Generating Equipment qualifying for net metering.
2. Rule No. 36.4 has been revised for the changes to the dedicated transformer costs for Solar Electric Generating Equipment.

Honorable Jaclyn A. Brillling, Secretary
April 28, 2010

2

Case No. 10-E-0136

3. Rule No. 37.1.3 has been revised to incorporate the change of rated capacity for non-residential Wind Electric Generating Equipment qualifying for net metering.

4. Rule No. 37.4 has been revised for the changes to the dedicated transformer costs for Wind Electric Generating Equipment.

Waiver of the requirements of 16 NYCRR §720-8 of the Commission's regulations as to newspaper publication is requested for this filing. Customer-Generators will be informed of these changes by the Company when they apply for net metering.

If you have any questions concerning this filing, please call Patricia Rivers at (315) 428-6833.

Sincerely,

Pamela B. Dise, Manager
Electric Pricing Department
