New York State Public Service Commission
Three Empire State Plaza
Albany, NY 12223-1350

Re: Case No. 10-E-0135 – New York State Electric & Gas Corporation's
Net Metering Compliance Tariff Filing

Dear Secretary Brillling:

New York State Electric & Gas Corporation ("NYSEG" or the "Company") hereby submits for filing the following enclosed tariff leaves in compliance with the New York Public Service Commission's (the "Commission") Notice Establishing Filing Requirements, Case No. 10-E-0135, issued March 31, 2010 (the "Notice") and Appendix 7-H (electronic tariff filing system) to the Commission's Codes, Rules and Regulations (16 NYCRR Appendix 7-H).

PSC No. 120 – Electricity, Schedule for Electric Service
Leaf No. 117.2, Revision 3
Leaf No. 117.2.1, Revision 2
Leaf No. 117.2.3, Revision 1
Leaf No. 117.32, Revision 4
Leaf No. 117.33, Revision 3

Effective: July 23, 2010

Description of Tariff Revisions

On March 16, 2010, revisions to Public Service Law §66-j and §66-l became effective regarding the net metering of non-residential solar and non-residential wind generators.

NYSEG is filing revisions to its tariffs to conform to the changes in Public Service Law affecting the above customers. NYSEG has made revisions to allow a non-residential customer to install solar generating equipment or wind generating equipment up to a maximum capacity of 2,000 kilowatts and be qualified for non-residential net metering service.

Furthermore, in the event NYSEG determines it is necessary to install dedicated transformer(s) or other equipment to protect the safety or adequacy of electric service

Honorable Jaclyn A. Brillling, Secretary

provided to other customers, non-residential customers with solar generators less than 25 kilowatts shall pay for the costs of such equipment and installation, up to a maximum amount of \$350. Non-residential customers with wind generators less than 25 kilowatts shall pay for such costs up to a maximum amount of \$750. A customer taking service under the Farm Wind Electric Generating System Option with a wind generator that has a capacity greater than 25 kW, the customer shall pay for such costs up to a maximum amount of \$5,000. A non-residential customer with either a wind or solar generator equal to or greater than 25 kilowatts shall pay for costs of the transformer(s) or other equipment, including installation costs.

Newspaper Publication

The Company respectfully requests that the requirement of § 66(12)(b) of the Public Service Law and 16 NYCRR §720-8.1 for newspaper publication be waived because a customer will be notified of these tariff changes when the customer submits an application for such service with the Company.

Company Contacts

Please direct any questions pertaining to this filing to Lori Cole at (607) 762-8710 or to me at (585) 771-4692.

Very truly yours,
