RE: Melody Lake – Monticello, NY - PWS ID: NY5205653 - C-Community Water System  
**Melody Lake Proposed one-time surcharge for Permanent Disinfection System**

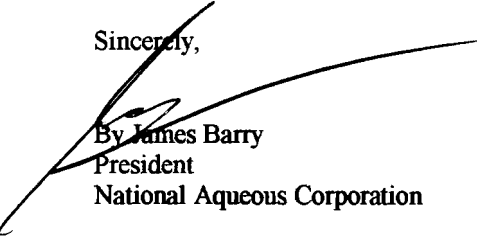

Dear Alia,

Enclosed please find our budget and back-up documentation for a Proposed One-Time surcharge for a Permanent Disinfection System for the above referenced utility. The system serves sixty three (63) customers each paying \$172 per quarter (Includes a \$50 escrow account fee.) As you are aware we are presently putting together documentation to request a rate increase. However, it is our hope that this surcharge can be reviewed separate and apart from the rate increase since this Permanent Disinfection System installation is a time sensitive mandate from the NYSDOH. (Glenn Illing, PE at NYSDOH Monticello Office can be reached at 845-794-2045 for verification of these requirements.) The system was designed by Lanc & Tully Engineering, Goshen, NY and the drawings are approved and filed at the Monticello Offices of the New York State Department of Health.

The system requires a new outdoor fiberglass shelter (see attached quote) as well as some new electrical and plumbing work to link the new structure with the existing well house. We have prepared a budget totaling Thirty Seven Thousand and Ninety Five Dollars (\$37,095.) This would break down to a one-time surcharge per customer of Five Hundred Eighty Eight Dollars and Eighty One Cents (\$588.81.) There is a 2-4 Week Lead Time for the Materials and Payment is due within Thirty Days to our Vendors. We anticipate the overall installation to take approximately Three Weeks. Due to the requirements by NYS DOH we would like to send out a special surcharge on August 1<sup>st</sup> to the customers to allow us to have the funding in place to complete these repairs this summer.

Once approved we will be distributed information to all customers via regular mail and posted on our website [www.nationalaqueous.com](http://www.nationalaqueous.com). Should you have any further questions or if you require any additional information please do not hesitate to call 718-745-0207.

Sincerely,

By   
James Barry  
President  
National Aqueous Corporation
