

September 28, 2010

Honorable Jaclyn A. Brillling, Secretary  
State of New York  
Public Service Commission  
Office of the Secretary, 19th Floor  
Three Empire State Plaza  
Albany, NY 12223

Dear Secretary Brillling:

The attached statement, issued by Niagara Mohawk, d/b/a/ National Grid ("Company"), is transmitted for filing in accordance with the requirements of the Public Service Commission:

Adjustment to Charges Pursuant to the New York Power Authority (NYPA)  
Hydropower Benefit Reconciliation Mechanism Statement No. 19

To P.S.C. No. 220 Electricity

Effective: October 1, 2010

The purpose of this filing is to implement the reconciliation mechanism associated with Schedule P.S.C. No. 220 Electricity, Rule 40 – Adjustment to Charges Pursuant to the New York Power Authority (NYPA) Hydropower Benefit Reconciliation Mechanism. This rule was established in accordance with Section 1.2.3.2 and Attachment 6 of the Joint Proposal in P.S.C. Case No. 01-M-0075 as approved by the Commission in its Opinion No. 01-6, Opinion and Order Authorizing Merger and Adopting Rate Plan, issued and effective December 3, 2001, and subsequently amended by the Commission in its Order Approving Tariff Amendments, issued and effective August, 28, 2003 in Case No. 03-E-0905 and Order issued and effective December 17, 2007 in Case No. 01-M-0075.

As described in Rule 40.1.3, only the monthly adjustment to residential charges applicable for the NYPA reconciliation shall be implemented commencing March 1, 2009 and shall continue thereafter based upon each month's actual data. Per Rule 40.1.2, the application of the annual adjustment for calendar year 2007 ended as of February 28, 2009.

An interruption to the Company's batch reporting process resulted in the late billing of a large portion of July 2010 cost month NYPA replacement power. The subsequent August 2010 billing included the charges missing from the July bills. If each cost month is treated individually in accordance with past practice, the shift from July to August would produce an August cost month NYPA reconciliation charge followed by a credit associated with the September cost month. To avoid the swings in the factor that would result from this treatment and to minimize the volatility customers would see in their bills from this month-to-month change, the Company has chosen to defer the August cost month reconciliation until November 2010, when the charge can be added to the September cost month reconciliation for an expected net credit to be billed in November 2010.

Therefore, the NYPA Hydropower Reconciliation Factor for the cost month of August is \$0.00000 and is effective, on a two-month lagged basis, from October 1, 2010 through October 31, 2010.

Honorable Jaclyn A. Brilling, Secretary
