**Re: Case 12-E-0394, Net Metering**

Dear Secretary Brillling:

On October 12, 2012, Consolidated Edison Company of New York, Inc. (the “Company”) made a tariff filing with the Public Service Commission (the “Commission”), proposing changes to the Company’s Schedule for Electricity Service, P.S.C. No. 10 – Electricity, in compliance with the Commission’s Notice Establishing Filing Requirements, dated September 7, 2012, in Case 12-E-0394. The filing proposed changes to Rider R - Net Metering for Customer-Generators and to Application Form G - Application for Net Metering or Standby Service and/or Buy-back Service (“DG Application”). On November 13, 2012, the Company made a filing to further modify the DG Application to reflect tariff changes implemented pursuant to the Commission’s Order Approving Tariff Amendments with Modifications and Granting Petition for Rehearing, issued and effective October 18, 2012, in Case 11-E-0299. The tariff changes for both filings were proposed to become effective on February 1, 2013.

At the request of the Staff of the Department of Public Service, the Company has agreed to postpone to March 1, 2013, the effective date of the tariff changes that were filed on October 12, 2012, and November 13, 2012. Accordingly, the Company hereby submits Supplement No. 8 to P.S.C. No. 10 – Electricity.

Supplement No. 8 is issued on 30 days’ notice and has an effective date of January 17, 2013. The Company requests waiver of notice requirements of the changes in the effective date of the proposed tariff leaves.

Sincerely,

/s/ William A. Atzl., Jr.  
Director  
Rate Engineering Department
