RE: Case No. 12-E-0396 – Niagara Mohawk Power Corporation d/b/a National Grid
Tariff Filings to Effectuate Amendments to Public Service Law §66-j (Remote Net Metering for
Micro-Hydro Electric Generating Systems) and Conforming and Reforming Changes to
Standardized Interconnection Requirements

Dear Secretary Brillling:

The enclosed leaf, issued by Niagara Mohawk Power Corporation d/b/a National Grid (“National Grid”), is being transmitted for filing in accordance with the requirements of the New York State Public Service Commission (“Commission”).

Fifth Revised Leaf 199.1

To PSC No. 220 Electricity

Effective: February 1, 2013

On September 7, 2012, the Commission issued a Notice Establishing Filing Requirements in the above case number directing the major electric utilities to make the filings necessary to conform their tariffs to the new statutory provisions providing for the remote net metering of micro-hydroelectric generating equipment by farm and non-residential customers. The above leaf complies with this directive.

This notice also directed the major electric utilities to propose changes to the standardized interconnection requirements (“SIR”) that would conform those requirements to the new statutory provisions of PSL §66-j. These proposed changes to the SIR will be addressed in a separate filing to be made by the joint utilities which will include National Grid.

Waiver of the requirements of 16 NYCRR §720-8 of the Commission’s regulations as to newspaper publication is requested for this filing.

If you have any questions concerning this filing, please call Patricia Rivers at (315) 428-6833.

Sincerely,

/s/ Patricia J. Rivers
