**Case 11-E-0318: Supplement to Compliance Filing to Effectuate Amendments to Public Service Law**  
**Section 66-j**

Dear Commissioners:

The amended tariff leaves set forth below are filed by Central Hudson Gas & Electric Corporation (“Central Hudson” or the “Company”) to become effective April 1, 2012:

**P.S.C. No. 15 – Electricity**

11 Revised Leaf No. 167.1  
1<sup>st</sup> Revised Leaf No. 184.8  
1<sup>st</sup> Revised Leaf No. 184.9  
1<sup>st</sup> Revised Leaf No. 202.8

1<sup>st</sup> Revised Leaf No. 202.9  
4<sup>th</sup> Revised Leaf No. 268  
4<sup>th</sup> Revised Leaf No. 269

On December 21, 2011 Central Hudson submitted a filing in Compliance with order issued and effective November 21, 2011 to establish filing requirements to effectuate amendments to Public Service Law Section 66-j as it pertains to fuel cell customer generators. The purpose of this supplement is to amend the above referenced Leaves to reflect handling of excess fuel cell customer generation pursuant to revisions to Section 66-j of the Public Service Law effectuated through Chapter 530, respectively, of the Laws of 2011.

The revisions to Public Service Law Section 66-j do not specifically address interconnection costs for non-residential micro-hydroelectric and fuel cell generators sized up to 25 kW. At this time the Company believes that interconnection costs for these types of generation units will be greater than \$350. Therefore, the Company has reflected in our amendments the recovery of interconnection costs from customers should not be less than the Company’s actual costs.

Since customers participating in net metering are subject to interconnection requirements and are therefore in direct contact with Central Hudson, the Company requests that the requirements of Section 66(12)(b) of the Public Service Law as to newspaper publication for the amendments listed herein be waived.

Questions related to this filing should be directed to Linda VanEtten at (845) 486-5554.

Yours very truly,

Michael L. Mosher
