Cancellation of Leaves and Statements Filed in Case 11-E-0465

Dear Commissioners:

Central Hudson Gas & Electric Corporation ("Central Hudson" or "the Company") hereby submits the following electric tariff supplement:

P.S.C. No. 15 – Electricity

Supplement No. 59 – Cancellation

The purpose of this filing is to cancel the rate leaves and statements filed with the Commission on August 25, 2011 in Case 11-E-0465. Central Hudson submitted a tariff filing to propose the implementation of a new residential off-peak rate structure, covering both delivery and supply, to address the launch of PEVs in 2010 by major automotive manufacturers, including Nissan and Chevrolet.

After discussing the proposal with Staff of the Department of Public Service, the Company believes that elimination of the SC 6 differential may have been premature in light of the evolving PEV market. Based on this discussion, Central Hudson will request in a separate filing that the terms of the Joint Proposal ("JP") approved by the Commission in Case 09-E-0588 regarding SC 6 be modified.

Questions related to this filing should be directed to Glynis Bunt at (845) 486-5420 or Linda VanEtten at (845) 486-5554.

Yours very truly,

Michael L. Mosher
Vice President - Regulatory Affairs
