Background

The Notice directed combination electric and gas utilities to make filings necessary to conform their tariffs to the new statutory requirements. The requisite proposed tariff amendments were to be filed by September 26, 2011 and bear an effective date of January 1, 2012.

Overview of the Filing

Pursuant to the Power NY Act of 2011, Customers who receive a New York State Energy Research and Development Authority (NYSERDA) loan from NYSERDA or its designated agent will be required to repay the loan installments on their utility bills. Under the NYSERDA loan program, NYSERDA will notify the Companies of the monthly loan installment amounts that are to be charged on the customer's bills. The proposed tariff amendments set forth the rules that apply to a customer that receives a NYSERDA loan as they relate to the customer's electric and/or natural gas service.

The Companies requests that the requirement of § 66(12)(b) of the Public Service Law and 16 NYCRR §720-8.1 as to newspaper publication be waived because NYSERDA, as the administrator of the NYSERDA loan program, will be providing outreach to customers for this program.

A State Administrative Procedure Act Notice is enclosed for publication in the State Register.
