Original Leaf No. 163.5.25	3 rd Revised Leaf No. 172.1	9 th Revised Leaf No. 213	

Purpose of Filing

The purpose of this filing is to: (1) consolidate existing tariff provisions addressing net metering into a general information section in order to improve customer understanding and utilization of the Company's tariff, as well as ease the administrative burden resulting from required compliance with changes to net metering laws and regulations; and, (2) revise the billing provisions applicable to demand metered customers to reflect situations where customers may be subject to the Hourly Pricing Provision ("HPP") of the Company's tariff.

This filing reflects elimination of the constraint applicable to customers with farm service wind or farm waste generators wherein these customers were prohibited from offsetting net metering credits against bills for usage metered at locations other than the net metering delivery point. This was also reflected in the compliance filing made by the Company on August 22, 2011 in Case 11-E-0318 in response to revisions to Public Service Law Sections 66-j and 66-l effectuated through Chapter 35 of the Laws of 2011. This

change has been included in the instant filing to avoid the need to supplement the filing upon approval of the August 22, 2011 filing.

At the present time the Company believes that there could be three customers subject to the provisions of the HPP that may be impacted by the revisions applicable to demand metered customers. Based on this, as well as the fact that the remaining changes are either consolidation or have been reflected in an earlier filing as previously noted, the Company proposes to notify each of the impacted demand customers directly and requests that the requirements of Section 66(12)(b) of the Public Service Law as to newspaper publication for the amendments listed herein be waived.

Questions related to this filing should be directed to Glynis Bunt at (845) 486-5420 or Linda VanEtten at (845) 486-5554.

Yours very truly,

Michael L. Mosher
Vice President - Regulatory Affairs
