Re: Cases 09-G-0716 and 09-G-0718 – Proceeding on Motion of the
Commission as to the Rates, Charges, Rules and Regulations of New York
State Electric & Gas Corporation and Rochester Gas and Electric
Corporation for Gas Service

Dear Secretary Brilling:

New York State Electric and Gas Corporation ("NYSEG") and Rochester Gas and Electric Corporation ("RG&E"), collectively referred to as "the Companies", hereby transmit for filing the enclosed tariff leaves in compliance with the New York State Public Service Commission's ("NYPSC" or "Commission") Order Modifying Gas Revenue Decoupling Mechanisms and Establishing Further Procedures, issued and effective August 20, 2012 ("the Order"), in the above referenced proceedings. These tariff leaves are transmitted for filing in compliance as identified herein and in accordance with the requirements of Appendix 7-H (electronic tariff filing system) to the Commission's Codes, Rules and Regulations (16 NYCRR Appendix 7-H).

Below is a list of the revised tariff leaves to be effective September 1, 2012:

NYSEG – PSC No. 90

Leaf No. 105.2, Revision 2
Leaf No. 105.2.1, Revision 0

RGE – PSC No. 16

Leaf No. 127.46.2, Revision 3
Leaf No. 127.46.3, Revision 2

Purpose of the Filing

The Companies are filing tariff amendments in compliance with Ordering Clause 1 of the Order to effectuate changes to the Revenue Decoupling Mechanism ("RDM") methodology as discussed in the Order.

Overview

The Companies' April 11, 2012 petition requested authorization to modify the terms of their currently effective gas Rate Plans by further consolidating certain non-residential customer classes for purposes of RDM reconciliations. Specifically, RG&E had proposed to combine the non-residential SC-1/SC-5 rate group with the non-residential SC-3/SC-3HP rate group, and NYSEG had proposed to consolidate the non-residential service classes SC-1T and SC-5T with the non-residential SC-2S/SC-14T rate group.

In accordance with the Order, the proposed consolidations for each Company may be implemented if the comparison of the revenues the RDM mechanism would have yielded if not modified, to the revenues obtained from the mechanism as modified, results in more than 5% of the Company's net gas income. If this comparison demonstrates the 5% materiality test would not have been met had the RDM mechanism as adopted in the Rate Plan remained in effect, then the Companies shall cancel the modification made to the RDM mechanism and reinstate the original mechanism.

In accordance with Ordering Clause 2, the Companies are also submitting herein revised pages to Appendix U of the Joint Proposal adopted in the Order Establishing Rate Plan issued September 21, 2010. The pages contain alternative RDM Targets based upon the revised methodology as discussed above.

Newspaper Publication

In accordance with Ordering Clause 4 of the Order, the requirements of 66(12)(b) of the Public Service Law requiring newspaper publication has been waived.

If you have any questions related to this filing, please contact me at 607.762.8710.
