General Service - Demand Metered

APPLICABLE USE OF SERVICE FOR:

Demand metered commercial service inside the Village of Churchville.

<u>MONTHLY RATE:</u>	<u>Rate</u>
Demand charge, per kW	\$9.60
Energy charge, per kWh	\$0.0391

MINIMUM CHARGE:

The minimum charge is the demand charge.

DETERMINATION OF DEMAND:

- A. The active demand shall be determined (at option of the village) by meter when three phase service is supplied, or when the customer's energy consumption has exceeded 3,000 kWh for three consecutive months, or when the connected load of a customer indicates that the energy consumption will exceed 3,000 kWh per month.
- B. The active demand shall be the maximum 15 minute integrated demand. For billing purposes, the active demand shall be the greatest of the following:
 - 1 The demand occurring during the month for which the charge is made.
 - 2 One-half of the highest demand occurring during any of the preceding eleven (11) months.

TERMS:

- A. Three Phase Service: Six months and thereafter until terminated on three days written notice from customer to the Village Clerk.
- B. In case service is terminated and is resumed by the customer at the same location within the same billing period, service will be billed for the entire billing period without giving effect to temporary suspension.

SERVICE CLASSIFICATION NO. 3 (CONT'D)
General Service - Demand Metered

SPECIAL PROVISIONS:

- A. When the customer purchases energy at primary voltage, a discount amounting to 3% of the bill will be allowed. When, in addition, the customer furnishes and maintains the necessary substation for purchasing energy at primary voltage this discount will be 5% of the bill.
- B. Customers taking service for the operation of welders, x-ray machines or any other equipment having a highly fluctuation or large instantaneous demand which causes undue voltage disturbance upon the circuit from which service is taken thereby interfering with the service to others or failing to do so, shall pay in addition to the charge for service, 50 cents per month, per KVA of the name-plate rating of such equipment.
- C. The customer agrees that during the first year of service, the demand upon which the demand charge is based will not be less than 50% of that which the consumer has requested the village to be ready to supply, and thereafter the demand charge will not be less than 50% of the maximum during the preceding eleven months.

TERMS OF PAYMENT:

All bills are due when rendered. Full payment must be received on or before the date shown on the bill to avoid a late payment charge of 1.5% as provided in Rule VIII of the NYMPA generic tariff.

CHARGES

A. RECONNECTION CHARGE:

When service has been discontinued, either by the Municipality as provided in Rule XIII of the NYMPA generic tariff or at the request of the consumer and the same consumer applies for reconnection of service at the same premises within four (4) months, there shall be a reconnection charge payable before service will be reestablished, in the amounts as follows:

\$75.00 during regular office hours, Monday through Friday
\$200.00 after regular office hours, Monday through Friday
\$200.00 on a Saturday, Sunday or Holiday

B. INSUFFICIENT FUNDS CHECK CHARGE:

Any checks received in payment for electric service which are returned to the municipality for insufficient funds or are otherwise dishonored by the bank, shall bear a nonrecurring charge of \$25.00 for each check that has to be processed by the municipality. If two checks have been returned by the bank, the customer who issued the dishonored checks may be required by the municipality to render future payments by cash, money order, certified or cashiers check. Post-dated checks shall be returned to the customer as invalid for the transaction. Only United States currency shall be accepted for payment of accounts due to the Municipality.

PURCHASED POWER ADJUSTMENT CLAUSE

APPLICABILITY

All customers receiving service under any of the Village's electric department service classifications are subject to Purchased Power Adjustment Charges ("PPAC").

ADJUSTMENT CLAUSE

The PPAC shall be the amount which shall be added to each kilowatt-hour of each rate schedule to reflect and recover all purchased power and transmission costs billed to the Village from all service providers.

CALCULATION OF THE PURCHASED POWER ADJUSTMENT CHARGE

The PPAC shall equal the total cost of all power and transmission costs billed to the Village in each month divided by the total kWh purchases in that month, less the base cost of purchased power measured at system input level adjusted by a loss factor (Factor of Adjustment). The resultant cost per kWh shall be founded to the nearest \$0.000001 and applied as a charge or credit to all kilowatt-hours billed in the following month.

ANNUAL RECONCILIATION

At the end of each fiscal year the Village will perform a reconciliation to determine whether there was an under- or over-collection of purchased power expense during the preceding year. The calculation is as follows:

Total Purchased Power Cost – (kWh sold x Base Cost of Purchased Power x Factor of Adjustment).

The result will then be compared to the actual PPAC revenues recovered during this period to determine if a PPA Reconciliation Surcharge or Refund is applicable. The resultant Surcharge or Refund will be included as a line item in the following month(s) calculation(s) of PPAC in order to adjust revenues to more accurately reflect actual expenses. The number of months over which the Surcharge or Refund will be included will depend on the size of the Surcharge or Refund. If the Surcharge/Refund is under \$5,000 it will be included in one month. Surcharges/Refunds between \$5,000 and \$10,000 will be split between two months and any Surcharges/Refunds over \$10,000 will be charged/credited in \$5,000/month increments until complete in order to minimize the impact on rate payers.

BASE COST OF POWER

The base cost of power for computation of the PPAC shall be \$0.017530 kilowatt-hour as measured at the system input level. The base cost of power measured at the sales level shall be \$0.018187/kilowatt-hour.
