SECTION 1 – BASIC LOCAL SERVICE

A. INDIVIDUAL LINE SERVICE

Exchange service is the provision to the customer, either residence or business to the exchange network for the purpose of making and receiving calls at tariffed rates. Exchange service is available in the types and grades listed in this section at the rates listed. These rates are for customers located within the base rate area.

1. Grade of Service

a. Individual Line Service

Individual Line Service is the grade of service providing a central office line for one specific customer only. Two or more lines of the same customer may be grouped together for incoming service if the lines are served from the same central office and terminate at the same premises.

b. Multi-Premises Service

Multi-Premises Service is the grade of service providing a central office line at two or more non-contiguous customer premises. Multi-Premises Service is provided on an individual Line basis only at individual line rates per location.

2. Types of Local Service

a. Flat Rate Exchange Service

Flat Rate Service is provided at a monthly rate with an unlimited number of calls within a specific local calling area. The local calling area for each exchange is specified in this section. Flat Rate Service is offered on both individual and party line service unless stated otherwise.

b. Message Rate Exchange Service

1. Message Rate Exchange Service is provided at a monthly rate either with a specific dollar allowance for local calls or with no allowance. Charges for each local call can be found in this tariff. Message Rate Exchange Service is offered only on individual lines. The following is the only type of Message Rate Service Available.

Un-timed Message Rate

Charges are on a per call basis to local calling area numbers and are un-timed.

SECTION 1 – BASIC LOCAL SERVICE

A. INDIVIDUAL LINE SERVICE (cont'd)

2. Timing of Local Calls

- a. Chargeable time periods begin when the connection is established, that is, when the called number is answered.
- b. Chargeable time periods end when either the calling station or the called station hangs-up, thereby releasing the network connection.
- c. Chargeable time periods do not include time lost because of faults or defects in the service.
- d. Initial and overtime chargeable time periods apply on calls to points outside the primary local calling area and within the extended local calling area.
- e. Initial and overtime chargeable time periods do not apply to local calls from flat rate customers.
- f. When the exchange service is connected to a customer-provided communications system through a terminating arrangement or connecting arrangement under the provision of this tariff, chargeable time begins when a call from the telecommunications network terminates in or passes through the first multi-line terminating system or terminal equipment on that communications system. It is the customer's responsibility to furnish appropriate answer supervision to the point of connection with the exchange telephone service so that chargeable time may begin
