SERVICE CLASSIFICATION NO. 1  
Residential

APPLICABLE TO USE OF SERVICE FOR:

Single-phase residential purpose usage in an individual residence; in an individual flat or individual apartment in a multiple-family dwelling; for residential purposes in a rooming house where not more than four (4) rooms are available for rent; and for single phase farm service when supplied through the farm residence meter; use exclusively in connection with religious purposes by corporations or associations organized and conducted in good faith for religious purposes, and including the operation by such corporation or association of a school, notwithstanding that secular subjects are taught at such school; for single-phase service exclusively in connection with a community residence as defined in subdivision 28, 28A or 28B of section 1.03 of the Mental Hygiene Law, provided that such residence is operated by a not-for-profit corporation and if supervisory staff is on site on a twenty-four hour per day basis that the residence provides living accommodations for fourteen or fewer residents; and use for any post or hall owned or leased by a not-for-profit organization that is a veterans organization.

CHARACTER OF SERVICE:

Continuous single phase alternating current approximately 60 hertz, at one standard secondary voltage approximately 120 volts, 2 wire, 120/240 volt 3 wire.

MONTHLY RATE:

	<u>Rate</u>
Customer Charge	\$2.59
<u>Summer Rate (May through October)</u>	
Energy Charge, per kWh	\$ 0.0317
<u>Winter Rate (November through April)</u>	
Energy Charge, per kWh	
First 750 kWh	\$0.0317
All kWh over 750 kWh	\$ 0.0430

MINIMUM CHARGE:

The minimum charge is the customer charge.

TERMS OF PAYMENT:

All bills are due when rendered. Full payment must be received on or before the date shown on the bill to avoid a late payment charge of 1.5% as provided in Rule VIII of the NYMPH generic tariff.

PURCHASED POWER ADJUSTMENT:

The charges set forth in this service classification shall be subject to a purchased power adjustment in accordance with Section IX of the Village of Holley tariff and consistent with Rule IX of the NYMPA generic tariff.

BASE PURCHASED POWER COST PER KILOWATT-HOUR:

The base purchase power cost per kilowatt-hour pursuant to Rule IX.B of the NYMPA generic tariff is 0.013164.

FACTOR OF ADJUSTMENT:

The factor of adjustment pursuant to Rule IX.D of the NYMPA generic tariff is 1.062998.

SERVICE CLASSIFICATION NO. 2  
General Service

APPLICABLE TO USE OF SERVICE FOR:

All nonresidential purpose except those for which a specific schedule is provided and where such entire delivery is taken at one point and singly metered at the delivery voltage. Available from existing circuits of adequate capacity and appropriate character.

CHARACTER OF SERVICE:

Continuous, single or three phase alternating current, approximately 60 hertz, on standard secondary voltage or at a higher standard voltage, if available and requested by the customer. The Electric Department will indicate the voltage and type of service available and appropriate for the customer's requirements.

MONTHLY RATE:

<u>Non-Demand Customers</u>	<u>Rate</u>
Customer charge	\$2.59
Energy charge, per kWh	\$0.0311
<u>Demand Customers</u>	
Demand charge - Secondary Service, per kW	\$5.50
Demand charge - Primary Service, per kW	\$4.86
Energy charge, per kWh	\$0.0170

MINIMUM CHARGE:

The minimum charge for Non-Demand Customers is the customer charge. The minimum charge for Demand Customers is the demand charge.

TERMS OF PAYMENT:

All bills are due when rendered. Full payment must be received on or before the date shown on the bill to avoid a late payment charge of 1.5% as provided in Rule VIII of the NYMPA generic tariff.

General Service

PURCHASED POWER ADJUSTMENT:

The charges set forth in this service classification shall be subject to a purchased power adjustment in accordance with Section IX of the Village of Holley tariff and consistent with Rule IX of the NYMPA generic tariff.

BASE PURCHASED POWER COST PER KILOWATT-HOUR:

The base purchase power cost per kilowatt-hour pursuant to Rule IX.B of the NYMPA generic tariff is 0.013164.

FACTOR OF ADJUSTMENT:

The factor of adjustment pursuant to Rule IX.D of the NYMPA generic tariff is 1.062998.

DETERMINATION OF DEMAND:

If metered, the demand shall be the highest average kilowatts measured in a 15 minute interval during the billing period, but not less than one (1) kilowatt.

Where a demand meter is not installed, the demand shall be considered to 50% of the total connected load as determined by the name - plate ratings of all devices, installed, and unused convenience outlet being considered to be 100 watts.

SPECIAL PROVISIONS:

- A. Where total load and operating schedule is predetermined as for signs and billboards, the kilowatt hour use may be computed and not measured.
- B. Whenever taking of service is measured at secondary voltage, metered energy will be billed without adjustment, and whenever taking of service is measured at primary voltage, metered energy will be decreased by three (3) percent. Whenever Electric Department does not have to supply and maintain a transformer for such service, there shall be a discount of (\$0.10) ten cents per kilowatt per month of measured demand. If the demand, in this case, is not measured, the metered energy will be further reduced by two (2) percent. These discounts shall be applicable to the energy charge or the minimum charge, whichever applies.

SERVICE CLASSIFICATION NO. 3  
Private Outdoor Lighting

APPLICABLE FOR USE OF SERVICE FOR:

Security outdoor lighting-multiple circuit-electric eye controlled. The utility may meter one service and impute this measured service to the other services of the same size and character. In that event, monthly charges are assessed by multiplying the usage of one metered fixture by the total number of fixtures.

CHARACTER OF SERVICE:

Limited use, approximately 4000 hours per year, 60 hertz a/c, 120/240 volts, single phase.

MONTHLY RATE:

For lamp and fixture including a 30' mounting bracket and the first 10 ft. of circuit, per unit.

	<u>Rate</u>
70 watt high pressure sodium	\$4.92
100 watt high pressure sodium	\$4.92
150 watt high pressure sodium	\$6.35
175 watt mercury vapor	\$4.92
250 watt high pressure sodium	\$8.48

For furnishing and setting a supporting wood pole: \$2.47 per pole, per month.

For furnishing additional circuit wiring, \$0.83 per unit of circuit per month, a unit of circuit consisting of 100 feet or less.

Special mounting brackets; refer to Special Provisions C.

TERMS:

Applicant shall make written agreement with Electric Department upon Form "SL" to make service under this Service Classification for a period of one year, and thereafter, until notice to terminate service is given by customer of Electric Department within thirty (30) days of end of the contract year.

### CHARGES

A. RECONNECTION CHARGE:

When service has been discontinued, either by the Municipality as provided in Rule XIII of the NYMPA generic tariff or at the request of the customer and the same consumer applies for reconnection of service at the same premise within four (4) months, there shall be a reconnection charge payable before service will be reestablished, in the amounts as follows:

\$62.00 during the regular working hours of the Electric Department, Monday through Friday;

\$94.00 after the regular working hours of the Electric Department, Monday through Friday, and all day Saturday, Sunday and Holidays.

B. INSUFFICIENT FUNDS CHECK CHARGE:

Any checks received in payment for electric service which are returned to the municipality for insufficient funds or are otherwise dishonored by the bank, shall bear a nonrecurring charge of \$20.00 for each check that has to be processed by the municipality. If two checks have been returned by the bank, the customer who issued the dishonored checks may be required by the municipality to render future payments by cash, money order, certified or cashiers check.

Post-dated checks shall be returned to the customer as invalid for the transaction. Only United States currency shall be accepted for payment of accounts due the municipality.

Only United States currency shall be accepted for payment of accounts due to the Municipality.

## PURCHASED POWER ADJUSTMENT CHARGE

### APPLICABILITY

All customers receiving service under any of the Village's Electric Department Service Classifications are subject to purchased power adjustment charges ("PPAC").

### ADJUSTMENT CHARGE

The PPAC shall be the amount which shall be added to each kilowatt-hour of each rate schedule to reflect and recover all purchased power and transmission costs billed to the Village from all service providers.

### CALCULATION OF THE PURCHASED POWER ADJUSTMENT CHARGE

The PPAC shall equal the total cost of all power and transmission costs billed to the Village in each month divided by the total kWh purchases in that month, less the base cost of purchased power measured at system input level adjusted by a loss factor (Factor of Adjustment). The resultant cost per kWh shall be rounded to the nearest \$0.000001 and applied as a charge or credit to all kilowatt-hours billed in the following month.

### ANNUAL RECONCILIATION

At the end of each fiscal year the Village will perform a reconciliation to determine whether there was an under - or over-collection of purchased power expense during the preceding year. The calculation is as follows:

Total Purchased Power Cost - (kWh sold x Base Cost of Purchased Power x Factor of Adjustment).

The result will then be compared to the actual PPAC revenues recovered during this period to determine if a PPA Reconciliation Surcharge or Refund is applicable. The resultant Surcharge or Refund will be included as a line item in the following month(s) calculation(s) of PPAC in order to adjust revenues to more accurately reflect actual expenses. The number of months over which the Surcharge or Refund will be included will depend on the size of the Surcharge or Refund. If the Surcharge/Refund is under \$5,000 it will be included in one month. Surcharges/Refunds between \$5,000 and \$10,000 will be split between two months and any Surcharges/Refunds over \$10,000 will be charged/credited in \$5,000/month increments until complete in order to minimize the impact on rate payers.

### BASE COST OF POWER

The base cost of power for computation of the PPAC shall be \$0.013164/kilowatt-hour as measured at the system input level. The base cost of power measured at the sales level shall be \$0.013993/kilowatt-hour.

### POLE ATTACHMENT RATES

For a cable system operator or telecommunication carrier who has a franchise to operate within the municipality's service territory and who has an executed pole attachment agreement with the municipality which permits attachment to electric system poles owned solely or jointly by the municipality the annual attachment rate is as follows:

	<u>Rate</u>
Cable System Operator	\$11.98 per equivalent pole
Telecommunications Carrier	\$11.98 per equivalent pole
