SECTION 6 - SPECIAL SERVICES AND PROGRAMS

6.1 EMERGENCY/ CRISIS/ DISASTER RESTORATION AND PROVISIONING - TELECOMMUNICATIONS SERVICE PRIORITY

6.1.1 General

- A) The Telecommunications Service Priority (TSP) Program is a federal program used to identify and prioritize telecommunications services that support national security or emergency preparedness (NS/EP) missions.

NS/EP services are defined as those telecommunications services which are used to maintain a state of readiness or respond to and manage any event or crisis which causes or could cause injury or harm to the population, damage or loss to property, or degrades or threatens the NS/EP posture of the United States.

TSP restoration and/or provisioning shall be provided in accordance with Part 64, Appendix A of the Federal Communications Commission's Rules and Regulations (47 C.F.R.), and the "Service Vendor Handbook For The Telecommunications Service Priority (TSP) Program" and the "Service User Manual for the Telecommunications Service Priority (TSP) System" (NCS Manual 3-1-1) (Service User Manual) issued and updated as necessary by the Office of Priority Telecommunications (OPT) of the National Communications System. Any changes to or reissuance of these regulations or manuals supersede tariff language contained herein.

SECTION 6 - SPECIAL SERVICES AND PROGRAMS

6.1 EMERGENCY/ CRISIS/ DISASTER RESTORATION AND PROVISIONING - TELECOMMUNICATIONS SERVICE PRIORITY (Cont'd)

- B) The TSP program has two components, restoration and provisioning.
- 1) A restoration priority is applied to new or existing telecommunications services to ensure restoration before any other services during a service outage. TSP restoration priorities must be requested and assigned before a service outage occurs.
 - 2) A provisioning priority is obtained to facilitate priority installation of new telecommunications services during a service outage. Provisioning on a priority basis becomes necessary when an end-user has an urgent requirement for a new NS/EP service that must be installed immediately or by a specific due date that can be met only by a shorter than standard or expedited Company provisioning time frame. As a matter of general practice, existing TSP services will be restored before provisioning new TSP services.

SECTION 6 - SPECIAL SERVICES AND PROGRAMS

6.1 EMERGENCY/ CRISIS/ DISASTER RESTORATION AND PROVISIONING - TELECOMMUNICATIONS SERVICE PRIORITY (Cont'd)

6.1.2 TSP Request Process – Restoration

To request a TSP restoration priority assignment, a prospective TSP user must:

- A) Determine that the user's telecommunications service supports an NS/EP function under one of the following four TSP categories.
 - 1. National Security Leadership
 - 2. National Security Posture and U.S. Population Attack Warning
 - 3. Public Health, Safety, and Maintenance of Law and Order
 - 4. Public Welfare and Maintenance of National Economic Posture
- B) Identify the priority level to be requested for the telecommunications service. The priority level is determined by the end-user's TSP category and service profile. The service profile defines the user's level of support to the portion of the telecommunications service that the user owns and operates, such as customer premises equipment or wiring. The five levels of priority and seven element groups that define the service profile are contained in the Service User Manual.

SECTION 6 - SPECIAL SERVICES AND PROGRAMS

6.1 EMERGENCY/ CRISIS/ DISASTER RESTORATION AND PROVISIONING - TELECOMMUNICATIONS SERVICE PRIORITY (Cont'd)

- C) Complete the TSP Request for Service Users form (SF 315) available on the National Communications System (NCS) website (<http://tsp.ncs.gov/>).
- D) For non-federal users, have their TSP requests approved by a federal agency sponsor. Non-federal users should contact the OPT, at the NCS website (<http://tsp.ncs.gov/>), for information on identifying a sponsor for TSP requests.
- E) Submit the SF 315 to the OPT.
- F) Upon receipt of the TSP Authorization Code from the OPT, notify the Company, and include the TSP Authorization Code in any service order to the Company requesting restoration of NS/EP services.

6.1.3 TSP Request Process – Provisioning

To request a TSP provisioning priority assignment, a prospective TSP user must follow the same steps listed in 2a. above for restoration priority assignment except for the following differences. The user should:

- A) Certify that its telecommunications service is an Emergency service. Emergency services are those that support one of the NS/EP functions listed in 2a(a) above and are so critical that they must be provisioned at the earliest possible time, without regard to cost to the user.
- B) Verify that the Company cannot meet the service due date without a TSP assignment.

6.1 EMERGENCY/ CRISIS/ DISASTER RESTORATION AND PROVISIONING - TELECOMMUNICATIONS SERVICE PRIORITY (Cont'd)

- C) Obtain approval from the end-user's invocation official to request a provisioning priority. Invocation officials are designated individuals with the authority to request TSP provisioning for a telecommunications service, and include the head or director of a federal agency, commander of a unified/specified military command, chief of a military service, commander of a major military command, or state governor.

6.1.4 Responsibilities of the End-User

End-users or entities acting on their behalf must perform the following:

- A) Identify telecommunications services requiring priority.
- B) Request, justify, and revalidate all priority level assignments. Revalidation must be completed every 2 years, and must be done before expiration of the end-user's TSP Authorization Code(s).
- C) Accept TSP services by the service due dates.
- D) Have Customer Premises Equipment (CPE) and Customer Premises Wiring (CPW) available by the requested service due date and ensure (through contractual means or otherwise) priority treatment for CPE and CPW necessary for end-to-end service continuity.
- E) Pay the Company any authorized costs associated with priority services.

SECTION 6 - SPECIAL SERVICES AND PROGRAMS

6.1 EMERGENCY/ CRISIS/ DISASTER RESTORATION AND PROVISIONING - TELECOMMUNICATIONS SERVICE PRIORITY (Cont'd)

- F) Report to the Company any failed or unusable services with priority levels.
- G) Designate a 24-hour point of contact for each TSP request and apprise the OPT.
- H) Cooperate with the OPT during reconciliation (comparison of NS/EP service information and resolution of any identified discrepancies) and revalidation.

6.1.5 Responsibilities of the Company

The Company will perform the following:

- A) Provide TSP service only after receipt of a TSP authorization code.
- B) Revoke TSP services at the direction of the end-user or OPT.
- C) Ensure that TSP Program priorities supersede any other telecommunications priority that may be provided (other than control services and order wires).
- D) Designate a 24-hour point of contact to receive reports of TSP service outages from TSP service users.

6.1 EMERGENCY/ CRISIS/ DISASTER RESTORATION AND PROVISIONING - TELECOMMUNICATIONS SERVICE PRIORITY (Cont'd)

- E) Designate a 24-hour point of contact to coordinate TSP processes with the OPT.
- F) Confirm completion of TSP service order activity to the OPT.
- G) Participate in reconciliation of TSP information at the request of the OPT.
- H) Ensure that all subcontractors complete reconciliation of TSP information with the service vendor.
- I) Ensure that other carriers supplying underlying facilities are provided information necessary to implement priority treatment of facilities that support NS/EP services.
- J) Assist in ensuring that priority level assignments of NS/EP services are accurately identified "end-to-end" by providing to subcontractors and interconnecting carriers the restoration priority level assigned to a service.
- K) Disclose content of the NS/EP TSP database only as may be required by law.
- L) Comply with regulations and procedures supplemental to and consistent with guidelines issued by the OPT.

6.1.6 Preemption

When spare facilities are not available, it may be necessary for the Company to preempt the facilities required to provision or restore a TSP service. When preemption is necessary, non-TSP services may be preempted based on the Company's best judgment. If no suitable spare or non-TSP services are available, the Company may preempt an existing TSP service to restore a TSP service with a higher restoration priority assignment. When preemption is necessary, prior consent of the service user whose service will be preempted is not required; however, the Company will make every reasonable effort to notify the preempted customer of the action to be taken.
