1. Tariff Information
1.1 General**1.1.1 Tariff Structure**

- | | |
|-----------|---|
| A. | The tariff is divided into sections which are structured numerically, (e.g., Section 1, 2, 3 etc.). |
|-----------|---|

1.1.2 Page Revisions

- | | |
|-----------|---|
| A. | Tariff pages are revised and filed with the PSC on a continual basis. When tariff pages are filed, they show an issued and effective date (see page bottom). The issued date is the day upon which the pages were issued by the Telephone Company. The effective date is generally the date the PSC approves the tariff or allows it to go into effect. |
| B. | Each tariff page displays unique page identification information (see page top right). The first issuance of a page is labeled as the original. Future revisions are issued sequentially (i.e., first revision, second revision, third revision, etc.). The effective version of the tariff is used as the foundation for composing a filing providing there is not filing activity already pending that involves the same page(s). If there is a filing already pending, then the already pending filing page version is used as the foundation for the next filing. |
| 1. | It is possible for the same tariff page to be pending in two or more separate filings (simultaneously). If the PSC reprioritizes the pending filings so that first pending is not the first approved, be aware that a pending page with a lower revision number cannot overwrite a pending page with a higher revision number. The pending page with the highest revision number takes precedence. The lower revision number goes to superseded. |

1.1.3 Tariff Codes

- | | |
|-----------|---|
| A. | Appearing in the right margins of tariff pages are upper case alphabetical characters (or occasionally, a numeric character) enclosed in parenthesis. These characters represent a coding mechanism to explain the modification that has been made from one page revision to the next. The tariff codes are as follows. |
| 1. | (C)—A change in regulation or rate |
| 2. | (D)—A discontinued rate or regulation |
| 3. | (M)—Moved material |
| 4. | (N)—A new rate or regulation |
| 5. | (T)—A change in text, but no change in rate or regulation |
| 6. | (1)—Reissued matter |

1. Tariff Information
1.2 Referencing

1.2.1 Reference to Other Tariffs	
A.	Whenever reference is made in this tariff to other tariffs of the Telephone Company, the reference is to the tariffs in force as of the effective date of this tariff, and to amendments thereto and successive issues thereof. The regulations, rates and charges contained herein are in addition to the applicable regulations, rates and charges specified in other tariffs of the Telephone Company which may be referenced.
B.	P.S.C. No. 15 provisions pertaining to special charges state that where the Telephone Company furnishes a facility or service for which a rate or charge is not specified in the Telephone Company's tariffs, charges based on cost apply. Those tariff provisions enable the Telephone Company to be responsive to the unique communications requirements of individual customers. Each of the Telephone Company's tariffs for specialized services (e.g., mobile, video and program) contains similar provisions.

(T)

1.2.2 Trademarks and Service Marks	
A.	Many of the designations used by the Telephone Company to distinguish its products and services are claimed as trademarks or service marks. Rather than printing a trademark symbol with every occurrence of a trademarked or service marked product name as it is used throughout this tariff, let it be stated that when using the names of the Telephone Company products and services herein, such use is in an editorial fashion. Following are the proper use names of the Telephone Company trademarks and service marks that are referred to herein in terms of product and service offerings.
B.	Registered Service Marks
1.	INTELLIPATH II® Service
C.	Registered Trademark/Service Marks
1.	There are no such designations contained in this tariff.
