

AT&T Communications of New York, Inc.
P.S.C. No. 30 -- Telephone
Residential Services Tariff
Effective Date: December 1, 2014

Section 4
Leaf No. 1
Revision: 0
Superseding Revision:

SECTION 4 - INITIAL SUBSCRIPTION SERVICE

4.1 GENERAL

The rates, terms and conditions in this section apply to instate long distance Dial Station calls placed by Customers whose initial subscription to the Company is made through a local service provider and the Customer has not yet received A Company Consumer Services Agreement. The Company will issue a Company Consumer Services Agreement to the Customer upon notification by the local service provider to the Company that the Customer has subscribed to the Company as their primary interexchange carrier.

The terms and conditions that apply to the Dial Station service provided under this section will apply until the Customer of the service receives the Company Consumer Services Agreement or until the Customer directly contacts the Company and enrolls in a Company Calling Plan, Promotion or Service Offering that is not provided under this tariff, whichever occurs first.

4.2 DIAL STATION INSTATE LONG DISTANCE

Dial Station instate long distance rates apply to calls billed to the Customer's residential telephone account for which the initial subscription to the Company is made through a local service provider other than AT&T. Dial Station rates apply when:

- The person originating the call dials the telephone number desired and completes the call without the assistance of a Company Operator or the Company's automated operator system, and the call is billed to the calling station.
- The calling station cannot complete dial station call due to trouble on the telecommunications network, and chooses to re-dial the call.
- A calling station re-establishes a dial station call that has been involuntarily interrupted after the station has been reached.
- A Company Operator places a call for a calling station who identifies himself/herself as being handicapped and unable to dial the call because of his/her handicap,
- A Company Communications Assistant completes a call between persons with hearing and/or speech disabilities who use a Text Telephone (TT) or its equivalent and hearing persons who use an ordinary telephone (the completed call is rated and billed as a call from the calling station to the called station),
- A Company Operator places a call because no automatic recording equipment is available for dial completion.

SECTION 4 - INITIAL SUBSCRIPTION SERVICE

4.3 RESERVED FOR FUTURE USE

4.4 TIMING OF MESSAGES

- If the calculation for the charge results in a fractional charge, the fraction or amount will be rounded to the nearest whole cent.
- Chargeable time ends when a calling station "hangs up" thereby releasing the network connection. If the called station "hangs up", but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the network or by the Company operator.
- Chargeable time does not include time lost because of faults or defects in the service.
- When exchange telephone service used for calls is connected through a service terminating arrangement or connecting arrangement at a Customer's premises to a communications system, chargeable time for all calls begins when a call from the telecommunications network terminates in or passes through the first terminal equipment on that communications system. It is the Customer's responsibility to furnish answer supervision so that chargeable time may begin.

4.5 RATES AND CHARGES

Maximum Rates: Dial Station Usage Rates – InterLATA and IntraLATA

Class of Service	Rate Per Minute or Fraction Thereof
Dial station Calls	\$0.6000

See the Price List section of this Tariff for current rates and charges.
