Customers have the opportunity to designate a carrier for their intraLATA toll call traffic where Focal provides local exchange service. IntraLATA toll calls will automatically be directed to the designated carrier without the customer having to dial an access code. Alternately, customers may option to have a "No PIC" designation on their line. If a customer cannot decide at the time of placing a order on a intraLATA carrier, the Company may extend a 30 day grace period following the order placement for the customer to select a carrier and in the interim will be assigned a "No PIC" designation. Customers with a "No PIC" designation will be required to use an access code to reach an intraLATA carrier's network. If a customer changes their designated carrier or changes their designation from "No PIC" to a carrier, a \$5.00 charge will be billed to the customer for each eligible line that a PIC change occurs.
